DESCRIPTION

Keeper's Cottage is a most attractive stone-built country home, offering charming and versatile accommodation arranged across three bedrooms, three reception rooms and two bathrooms. Built from stone with a slate roof, Keeper's Cottage started it's life in 1800's as a two up, two down cottage. In 1970 an extension was built out of block and rendered externally, with the sunroom being added in 2015. The property enjoys a wonderfully peaceful rural setting, enhanced by a separate timber-built garage and a generous garden positioned just across the quiet lane. Extending to approximately 0.30 acres, the garden is predominantly a herb rich meadow, with former raised beds, providing an appealing opportunity for keen gardeners or those seeking a private outdoor retreat.

ACCOMMODATION

On entering the property through the front door, you are welcomed into a central hallway that forms the heart of the ground floor. To one side lies the inviting sitting room, while the well-appointed kitchen sits adjacent to a useful utility room. A downstairs shower room with WC provides further practicality. The ground floor also enjoys a separate dining room and an attractive wood-framed sunroom, creating a wonderfully light and versatile living space.

Upstairs, there are three comfortable bedrooms together with a family bathroom, completing the accommodation.

GARDEN

The garden has been landscaped following recent works needed to install a new sewage treatment plant to create a large terrace as you enter the garden. This will allow for maximum, easy and productive growth. The main area of gardens at Keeper's Cottage lies just across a quiet lane and is predominantly herb rich meadow and stream and offers an excellent blank canvas for the enthusiastic gardener - the land amounts to approximately 0.29 acres. There is a single garage for extra convenience.

SERVICES
